

## BENEFITS OF I-M HOME

### Provides more comfort

i-M home provides residents with more comfort at ease. Residents are able to turn on or turn off their electrical appliances anytime and anywhere with i-M home mobile app. Residents can be less worrying about whether they turned off their electrical appliances before leaving the house or to get the air conditioners ready just before you reach home. Imagine arriving home every evening to complete comfort.

### Energy and money saving

i-M home can pay off, literally, in terms of efficiency and energy savings. You can now control your electrical appliances remotely even you are not at home. Throttle your air conditioning system down when on vacation, and have it return to your preferred temperature on the day you return. Your house now works with you to manage itself for optimal efficiency.
